### DETAILED ACTION

1. This office action is in response to Applicant's amendment filed on 3 November 2006.

#### ***Allowable Subject Matter***

2. Claims 2-10, 13-21, and 25 are allowed. Claims 2, 14, and 17 are the independent claims.
3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is Japanese Patent JP 357083313A to Suzuki et al., which was applied to the claims in the office action mailed 2 August 2006. Suffice it to say, the patent to Suzuki et al. does not disclose "wherein the crossover port is primarily formed in the tubular shank" as claimed in independent claim 2, "wherein the area of the outlet passage is sufficiently small in relation to the area of the relief passage so that over ten percent of the drilling fluid exits the end clearance volume through the relief passage" as claimed in independent claim 14, or "wherein the cross-sectional area of the outlet passage is less than fifty percent of a longitudinal cross-sectional area of the bottom space taken along the hole axis, so that the drilling fluid exiting the outlet passage into the elongate fluid return path initially forms a maximum angle beta, relative to the hole being drilled when viewed radially, which is sufficiently large to effectively cool the tip cutting edge without stagnation" as claimed in

independent claim 17, and as such does not anticipate the instant invention as disclosed in independent claims 2, 14, and 17.

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Suzuki et al., and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claims 2, 14, and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric A. Gates whose telephone number is 571-272-5498. The examiner can normally be reached on Monday-Thursday 7:45-6:15.
